TECHNICAL SKILLS

Languages: Swift/SwiftUI, Java, Kotlin, Javascript, Python, C, SQL (SQLite)
Frameworks & Libraries: Node.js, CocoaPods, Heatmap.js, pandas
Developer Tools: Git, XCode, Postman, Charles Proxy, Wireshark, Docker, VSCode

EXPERIENCE

iOS Mobile Engineer Intern

June 2025 – August 2025

Comcast NBCUniversal

Philadelphia, PA

- Allowed 300,000+ monthly customers to pay their bills directly in app by supporting the development of the Native Payment experience within the Xfinity iOS app
- Increased transparency for stakeholders by optimizing system logging and error handling using Swift/SwiftUI
- Developed unit, snapshot, and user flow tests using XCTest framework, achieving 100% code coverage while adhering to QA requirements
- Collaborated with Android, Product, and QA teams to deliver a consistent, optimized user experience across platforms

IT Operations Student Developer

May 2024 – Present

Temple University

Philadelphia, PA

- Developed a SwiftUI iOS app that implemented the team's inventory management API, enabling users to view, edit, and manage database assets ultimately reducing ticket resolution time for support staff
- Integrated internal ticket tracking system into the app, allowing team members to manage tickets, contact clients via email, and increase productivity while mobile
- Designed and implemented an analytics dashboard within the app to display real time insights on ticket status and asset inventory for end users

PROJECTS

UniPlays | *Swift/SwiftUI, Firebase, OAuth*

January 2023

- Built a mobile app enabling college students to organize and register for pickup sports games.
- Integrated Firebase backend to store and track game details, player profiles, and performance statistics.
- Implemented OAuth for University SSO, restricting access to verified students and enhancing campus-wide engagement.

PhillyNow - Hackathon Project Winner | *HTML/CSS, JS, Python, Git*

October 2023

- Developed an interactive web app in a team of 4 to visualize violent crime rate across Philadelphia
- Validated and tested RESTful API endpoints using Postman to ensure accurate data retrieval and error handling
- Collaborated via Git and GitHub using branching and pull requests to streamline development

LEADERSHIP EXPERIENCE

President

August 2023 – Present

Temple Breakers

Philadelphia, PA

- Coordinated sponsorships of over \$2500 with companies and organizations such as Red Bull and Monster Energy for club events
- Transformed the club to an inclusive space by promoting a safe and supportive environment, growing membership to include underrepresented groups
- Organized largescale annual competitions with 150+ attendees and 50+ competitors from universities and professional dance companies nationwide

EDUCATION

Temple University

Philadelphia, PA

Bachelor of Science in Computer Science

Aug. 2022 – May 2026

Relevant Coursework: Mobile Application Development, Quality Assurance, User Experience and Design, Data Structures and Algorithm, Operating Systems
